Scotland's participation experts

Event Name	Scottish Parliament Social Security and Covid 19 Inquiry
Type of activity	Conversational workshop
Background description to the event	What would you like to say to the Social Security Committee Inquiry about your experiences during the Covid 19 emergency, and what changes would you like to see in the Scottish social security system to support people through the crisis and beyond?
Purpose	Your feedback will input into the Scottish Parliament Social Security Committee inquiry. The committee would like to hear from people who have used the benefits system during the Covid 19 emergency. Those who are in-work, out of work and seeking work.
Benefits of attending/who is it for?	People who have had experience or who are in receipt of benefits during the Covid19 emergency. Or those who have tried to claim. While we look forward to hearing from as many people as possible, we would really like to hear from tenants from outwith the Central Belt
